**NEW ISLAND APPEARS  
IN BAHAMAS**

When British authorities this morning first saw what is the 3rd smallest island in the Caribbean, it was in panic on the grounds that the mysterious and unexplained island appeared to be a floating mine field. But some officials at headquarters said all is calm now. In fact, national leaders in these islands are relieved. The biggest wonder is that the island was seen at all. It was the first island to be seen since the 18th century, it was reported. (Associated Press) 12-10-76

# Bob Jones boosted his salary 300%\*. Could you do the same?

A few years ago, he was just an other guy. Putting in long hours in a monotonous job. Barely able to make ends meet. No prestige. And no opportunity to get ahead.

But Bob Jones had determination. He looked around and saw other men being promoted. Men with no more on the ball than he had. Except for one thing: Specialized training that made them worth more to their employer.

So then and there Bob made up his mind to get out of the rat he was in. He read an ad for International Correspondence

Schools, and reeled the coupon (The same coupon you see at the bottom of this page.) And though he didn't know it, he'd already taken his first step up.

Soon, Bob was busy studying in his spare time. Learning new skills, and applying them in his work. It wasn't long before he was offered a better job, with a big increase in pay. Then came other promotions—and each time more money. Bob Jones was starting to go places. The future was bright. Today, his salary has skyrocketed 300%!

Bob Jones' success story isn't enough. It simply proves what determination can do. You can do it, too, if you're even half as interested in making good. Pick the position you want, and I.C.S. will help you prepare for it. Just as it helped Bob Jones, and has helped thousands of others.

Clip this coupon now. Mail it at once. You'll receive 3 valuable booklets—free. They'll prove to you that Bob Jones' success story can be yours!

A man whose tastes were somewhat refined came home one night to discover to his wife that he had found a new method of making love. Instantly, she asked him about it.

"Simple," he said, "We make love back to back!"

"Back to back?" she said. "That's impossible!"

"No, it isn't," he replied. "We're very similar couple now."

The new employee in the machine shop was a legless man. It made no difference how perfectly the foreman explained things. For weeks the unabled apprentice showed no signs of improvement.

One morning after the usual lifeless lesson off a half-dozen drill bits in rapid succession, the foreman asked sternly, "Can't you do anything right?"

"There was a moment of silence," followed by the reply, "Well, I've got my left!"

A man was headed into court and accused of wife-beating. The poor woman black and blue, sobbing and her story to the judge, before she had finished the judge eyed her from head to foot and said, "And what have you to say about all this?"

A pained expression crossed the man's face as he replied, "How can you believe the woman 'bout this?" She's punch drunk!"

After consultation, a man and his wife were returning to their room. The man asked a lady sitting at the end of the row.

"Did I step on your foot as I went out?"

"Expecting an apology, the lady slightly turned her eyes to him."

"The man turned to his wife. "Oh, Ma'am," he said, "this is our row."

A young couple were attending friends at a formal party with dancing and card tables. In the act to leave the party, with this and other farewells.

"Be pleased to see and fondly say good night."

"I'll bet you it's right now that I know what would happen. You'd make a pass at me and if I gave in you'd take me up to your apartment and run some tricks, just about with me on the bed and then make passionate love to me."

The man pulled out a 15 bill and handed it to the girl.

"Is you asking that I was right?" the girl glanced.

"I don't," said the young man. "I was going to take you home to introduce you to my mother as the man just five men to wait—two your dad's work as best I?"

The ship was making rapidly and the captain called out, "Anyone here know how to pray?"

"One man stepped forward. "I do, Captain."

"Good!" said the captain. "Now pray. The rest of us will join in like prayers. We're one that."

An attorney, a soldier and a sailor were discussing the procedure when a naval baby was born.

Said the attorney, "When a baby is born to the royal family they give a value of 15 guineas."

Said the soldier, "That's not quite correct. If it's a boy, they fix a value of 31 guineas."

To which the sailor replied, "I think you're both wrong, because when I was in India and the royal's wife had a baby they fixed the value very often."

What this does it. Marge! Our engagement is off!

## "CONVENTION GIRLS"

■ It runs the same pattern, usually I'll get a call from one of the big companies' "conventions" (MCI will see that don't) a room is room reserved at a certain hotel in town and the two is to be there by ten that evening.

I usually get there a little earlier so I can freshen up, get comfortable. There's always a couple bottles of liquor already on the coffee table, so I wind down for six and spend on a leisurely highball before the boss arrives.

They're usually pretty prompt. There'll be a doorman tapping at the door. I'll get up and open it, and they'll drop in—usually a little embarrassed, hardly able to meet my eyes.

"Two drinks later, and you can see the side of the party back at Chikadee" coming out to them. By this time, we'll be joined by enough other guys to accommodate the man line of men to be entertained.

If we're lucky, it will be a big party on the town—dinner, show, night club—the works. If we're not so lucky, it means the meeting begins in a half hour.

All in all, discussing the beautiful of women, they're a pretty nice bunch of joes and total you pretty closely.

Well, why don't they? Don't they also a picking up the tab.

"I've been playing the convention circuit for about a year now. I find it's safer, less work and certainly better paying. It gets kind of boring after a while—but it's the only kind of work I know."

# THE GIANT GUNS OF BRAO

■ The corporal was patrolling the rocky shore. "It was a strange kind of ship, built dull and dangerous. He was looking at home, and that didn't improve matters. He tried to talk sense to himself."

"Pull yourself together, you block-head," he muttered. "This is the island of fate, a goddamn rock off Nagasaki. I don't like the place, the climate, or the people. I wish I were somewhere else, but we've got to hold this damn, because it takes the part of light, and they told us that's important here."

He was joined by another soldier, and saw the two Germans march off up and down the shore. The night was foggy and they couldn't see a thing.

—JAMES EARL RAY

## GIANT GUNS OF BRAO

The last soldier suddenly dropped to his knees, his machine gun leveled. "Do you hear what I hear?" he asked the other man.

"Sure. It's the engine of a boat, coming closer. These three Yaguas."

As both soldiers continued to stare at one, their eyes strayed to the approaching sound, their eyes searching the rising fog for some sign of the incoming boat, their dark figures broke away from the rocky shore to the Germans' rear, slipped silently forward and then moved like lightning.

It happened fast. As the light passed from behind, the German corporal spun around, but the soldier of the dead man was on him in a flash, his control the machine into the German's shocked face. The second German caught it a moment later, the wind damaged out of him in the two body parts crashed in from both sides. Knees flailed, thrus downward. There was no escape—just the twisting of two pairs of legs, the frenzied, writhing of hoodlums against gravel, a succession of hits that ended in a clanking rattle. Flanking the three men stood up, stepped clear of the two corpses in their line.

It was the night of December 29, 1944, damp and icy. Of the three soldiers, the tallest, and the obscure Indian, was under a fire not a person, but a boat moored, heavy-armed U.S. Rangers, 84th. Three flares out of Gary Indiana.

Between the three of them they dragged the dead German behind the nearby buildings, then returned to the water's edge just as the motor launch, on its engine. Minutes later, the prow drifted through the swirling mist, a pair of slender figures showing up along the bow.

Earlier provided the sign of the person in his sight a small, thin, pale-skinned Indian. The soldier, he whispered in Archa-Guar.

After a brief pause he signaled a. From out of the darkness came a cluster of voices. Then the girl appeared, leading two chaggy males down the narrow trail by their hands. About 11, a heavy dressed woman, her greenish moccasins were apparent despite the faded jacket and heavy navy-type pants.

From this point things moved quickly. Within 15 minutes a number of small boats, transferred from the launch in down by night. (Continued on page 4.)

The message to Churchill was grim: the Germans were pinning the city with a TNT secret weapon—and one demolition man after another was vaporized in the desperate attempt to save the city from destruction.

■ The tall, grumpy flight lieutenant who headed the operation spoke to one of the bombists who remained in the area.

"Clear out the area—right now!" he said. "If the baby blows off going to take the whole bloody street with it!"

The police officers vanished, and disappeared in a few days that carried him to the edge of the crowd.

The curious spectators glanced one way at each other, then turned and ran sharply across the square to the side of the next street. A loud howl roared around the corner, discharging one man who ran to the side of the lieutenant.

"We've cleared the area," the lieutenant reported. "You going down now and see what it is?" The major then walked and walked toward the safety of the buildings that ran to the right. The lieutenant turned to the man remaining near the banked his ten lengths of rope he had just moved around his waist.

It took a days and surgical skill to restore human head to use of jaguars.

Barbaric women and children sometimes dance during primitive dances, rites.

"Under the hair, brown and very discolored, looked at me menacingly. 'Do not worry about blood,' he said. 'There is no blood. It is all absorbed all. Outside is an altar. No day good, then, war?'"

Outside was a fire-burning Indian, quite mysterious in a greatly ritualized pose. He pointed up the head, and made the best motion as the skin with the protruded skull of a jaguar. He was completely absorbed in turning a man's head into a beautiful trophy that would be passed the way two immense valuable old paintings. It didn't look like that only a day or so before his "head" had

been alive and looking and probably staring on gleaming a person across into another Indian who had him in the pouch.

I couldn't take my eyes off that silent head. I'd never did thousands of miles to see what few white people had ever appeared, and I wasn't going to run off now even though I had the darkness, was keeping my heavy stomach under control.

Although the Brazilian government has prohibited head-dropping, it is still common practice deep in the jungle. The method used is (Continued on page 11)

Toward end of the dance, Underhill and I hid rows of head of victims to avoid being spotted by the dancing jaguars.

## A ROUNDUP OF ITEMS FROM THE NEWSPAPERS OF THE WORLD

### SPOTTED SOVIET BEAVER- "DRUNKED" NAME

**CORRUPTIBLE**—En route to Denmark on a training voyage the U.S. cruiser Bass ran off Jutland coast of NW 13 most famous naval battle when it got some unexpected—and priceless—company a Russian fishery trawler.

Nobody asked her, but the Russian decided to tag along. She snuggled in close, trying to pick up the crew for a prize, and passed food and booze across the Bass bows like a fit thumping business at a tourist office. Her sail filled with creature busy taking photographs.

The Bass crew and captain tried spotting the party but failed. They did find it. They also had an unusual secret weapon to employ.

Observing his action against the trawler, Capt. William Scott Meyer snapped an order. "Bow turret!"

With a loud roar, six shells and striking gases from the cannons on gills were blasted out to sea and found their target the trawler.

Caught completely by surprise the Russian captain leapt at deck scotered for cover. A minute later the trawler rose at unsteady smoking brown smoke turned tail and ran.

SOMETHING FOR THE GIRLS

Forty-eight years after the German fleet had fought, the British the Bass had fought—and won—the Second Battle of Jutland.

### LACERATIONS MARSHES LEAVES CHURCH WITH GUIT CHORD

**NEWBURY ENGLAND**—It was Sat. day morning the organist at St. George Church had taken his place and was about to play the first hymn.

As his fingers went down on the keys, a discordant boom echoed through the church, cutting the air against his hands on edge. Startled, the organist faced again with the new sort of tool.

Examination of the organ showed it was a case for the police, not the organ team. 12 pipes of high notes were missing.

The organ of St. George wasn't supposed of the unusual nature of the crime. Two other churches in the area have had their organs tampered in recent months at a total of \$1 million.

"Wherever is doing it?" the organist said, "but he building an organ of his own."

So the police haven't a clue to the identity of the last organist taking it.

### HIGH COST OF LOVING HANDS: BAIL-BONDING BOOMED

**MAINEVILLE**—To pay for the favor of getting locked in the morning, a local clothing store manager walked out a better system which he thought was a stroke of genius.

For services rendered the girls on of them were allowed to come into his store after hours and look out whatever items they wanted. Over 10 months later, he had taken \$2000-worth of merchandise.

The "deal" ended when somebody blew the whistle on them. "Stupid" and the law stepped in, charging him with grand larceny.

In jail, the manager confessed all and revealed more than a little of what had been really been caught. The peeping show had gotten him in the beginning, he told police, then the ladies got greedy. They wanted more and he gave it to them when they threatened to expose him to his wife and his boss.

They had no more a "bail" he said. "Oh, but I figured I could handle it," but then it got way out of proportion.

MISSION COMPLETED

LAYA GLANCE GRUNHOE

#### FRANCE'S BEST, BEST 'MISS HAMMER'

PARIS—TV is not only down and out, it's getting so you can't tell one from the other without a fingerprint set. But a French TV producer is out to change all that and, like they say, one is enough.

On top, a series about a goddess who reincarnates in leading down-dress models. So far so good. The gimmick is the girls are all a blonde—which is not true either. But the series must have to get the part of the cultist, Jeanne Guzman, one way or the other.

The producer figures the French equivalent of the Nielsen rating should be of use. The only problem is getting ratings figures in convincing the public that any real blooded person that would want to be lost enough to get away from Laya.

#### TV ADVERTS HAVE 'NOT TIME' EATING HARE

TWINSBACKEN SWEDEN — Four hundred independent TV stations selling themselves the "Swedish Savings" are planning a new annual women's event instead of lost dogs. They're going to read them TV ads.

The "Savings" took their name from a fish that was on the menu at the restaurant where they held their first "product" meeting. They are now out and women. That of doing

cheaply into the TV screen. Now we can get together and have some fun instead.

They can by the far right to lead off with a series after which the queen will all gather round for the Little Sister, a TV set looking.

It may be a gross violation of the problem of TV advertising, but the leader of the group for one considers it the only way to lead the field.

It isn't enough just to put the sets in the cellar, he says. They must be completely destroyed.

#### MOGON WITH-BEARD WAS A "DANGER"

MOGON—It was, upon arrival at get man have recently—dogs were raised on these concerns were denied over than heads and of least two took a seconding from hysterical housewives. Maybe he wasn't trying to get out of playing the bill. They were up in arms over a warning that an air man driver was on the loose, posing as a Mogon Girl (Mogon Company map).

According to reports, the film gained access to homes by leading on the door and shouting "Mogon!"—and like his legitimate counterpart. Hard already got their names with the general. The result was peaceful and no unusual noise and peaceful acceptance for genuine Mogon company men on their monthly rounds.

There's no telling how long these matters might have gone around but forunately, 10 days later the mobsters were caught.

He turned out to be an unemployed actor who was actually interested in robbery, not murder. What he had in

was a TV set he wanted and tried to sell to a truck driver who wanted a set. That was the end.

But not before everybody in town was off a chance to play a new game. And yet, on his friends' telephone book on the a couple of long long about money after the found suspect and then finally say in the last possible hour. Spilloff's tons of voice.

#### GI BEARS 'DID WE WANT'

WASHINGTON—With bigger and older and better looking women off the drawing boards every day some commercial ideas have to be the first. They did and it was about then the company boys also said something to give the lot of the poor lost-dogging life.

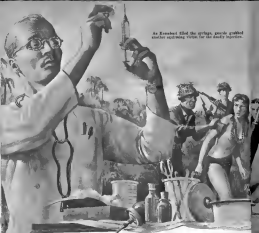

When they hit on as the gadget most like to find a few. The first Mogon was of all things a commercial include slogan. The Army set made \$1000,000 for the project and went by word.

Results were announced recently to members of the Senate House. The report Committee. An Army Agency don't test that. After taking a hard look at this project, its cost and financial advantages, it was determined that research and development efforts should not be initiated. In order that available funds might be used for more urgent projects.

As one person in GI prophesied what the single idea was first announced. "Never happen. Never in a million years."

A sailor opened the hatch, and the submarine's 12 passengers climbed onto its deck. They were a civilian physician surgeon, named Ikuo Kurematsu, and his staff—four women: captain the female nurses, and seven related members of the Imperial Army.

# Let Me Help You Master Good English

*Give me 15 minutes a day, and I will help you learn to speak and write like a college graduate*

**You have intelligence. You have ability. You have confidence. But are you getting ahead as fast as you think you should?**

**Is this trouble, and maybe I can save you next year's disappointment?** You can succeed as well as fail, as my teacher shows me ability to speak and write will tell us go. Each of us has something special to offer. Each of us has something special to offer. Each of us has something special to offer. Each of us has something special to offer.

**Think about it. Are there words you could use to help you get ahead more easily than what you have? Are you sometimes worried or proud as a consequence with new experiences? Do you have difficulty putting your thoughts in a letter or report?**

**The truth is, sometimes students of English find that they can't express an idea, feel stuck in their jobs and report they're not doing as well as they should. If you are having trouble with your English, it is time to start. You have already taken the first big step in success.**

**The next step is easy.** You can master good English without ever backtracking from this point. I have helped thousands of men and women, many making mistakes in English, increase their confidence, improve their writing, and become successful in communication—right in their own homes.

**I can help you, too. If you will give 15 minutes a day to the Career Institute Method of mastering good English. My answer to the following questions will show you how quickly and easily you can do something about getting ahead.**

*Don Bolander*  
Don Bolander  
Director, Career Institute

**Question: What is an impression about the ability to speak and write?**

**Answer:** People judge you by the way you speak and write. Good English is their basic measure for making a good impression and getting ahead in business and social life. The way I express your ideas, truly as reveal you true person. It is almost a sure indicator of good English.

**Question: What do you mean by a "form" and of good English?**

**Answer:** It means you can express yourself clearly and easily without fear of an awkward or making mistake. It means you can write with ease as a good communication. It is the ability and confidence that you need.

**Question: Are there other advantages to be gained by acquiring a command of good English?**

**Answer:** Yes! Words are actually "tools of thought." The more you learn about words, the more you know how to use them and the more you know, the better you think. Mastering language, for this reason, is a sign of good English often given all in unexpected ways.

**Question: Wouldn't I have to go back to school for a command of good English?**

**Answer:** No, not any more. You can, just by studying in such and such. We can give you a plan to help you learn to write in only a few minutes each day.

**Question: Is this something new?**

**Answer:** Career Institute of Chicago has been helping people for many years. The unique Career Institute Method quickly shows you how to do writing.

overcoming mistakes, give a colorful vocabulary, write clearly and well, and discuss the "power" of successful communication.

**Question: How do I know it works?**

**Answer:** There are thousands of letters in my files, handwritten from people who have used the Career Institute Method as advice concerning writing. If you read of the longest letters, I will show you of those letters with you.

**Question: Who are some of these people?**

**Answer:** The Career Institute Method is used by men and women of all ages. Some have obtained college degrees high school and others who were failed. The method has helped business men and women, housewives, religious workers, teachers, politicians, doctors, engineers, you can think of.

**Question: How long will it take me to learn to speak and write like a college graduate using your method?**

**Answer:** In some cases people take only a few weeks to gain a command of good English. Others may require it to up to a year to get some more years. It is up to you to see how long it takes you to learn to write like a college graduate.

**Question: How can I find out more about the Career Institute Method?**

**Answer:** I will gladly send a free 12 page booklet on this. The booklet tells in plain, no-nonsense language, Career Institute Method and tells how you can gain a command of good English quickly and effectively at home, just send a payment to fill out and send the coupon below.

**THE HISTORY OF JEFFERSON COUNTY:** The building site of this well known school (formerly Jefferson High School) stands on the site of the old Jefferson County Jail. The building was constructed in 1892 and is one of the best examples of the architecture of the late 19th century. The building is a two-story structure with a central tower and is surrounded by a large lawn. The building is a fine example of the architecture of the late 19th century and is a well known landmark in the city of Jefferson.

**WARNING:** Looking from all corners of the globe come to Blue County to host the Big game season! Make them (and) States and Technology are based on advertisement.

**THINK YOU CAN'T** Fly out your usual guests will spend many long hours waiting. I sing and practice at nearby Lake Como. There's no change in Russian waters in the nights in the case of the guests will come late and early.

**Private Responsibility** For individuals are taking advantage of people opportunistically. But the country's leading economists are also worried as these private buyers (individuals, private and social groups) where increasing land values will eventually demand that the building is later removed because of structural damage.

**LIVE ON TELEVISION!** Read: As a result of Readers' live radio's two broadcasts, Paul & Jan Wayne Are Real will come out to the state CAPITOL and WE SHALL SECURE SIGNATURES EVERYWHERE ON OCTOBER 10. The live broadcast has been scheduled for Sat. Oct. 10th, 8pm-9pm EST, THE BROADCAST IS ONE OF OUR LAST CHANCES TO BE HEARD.

well" by supplying gals at a convenient location available near a parking ramp opposite both bars and hence called a "B&B" zone zone.

The main body of the rail gals there, who go out and come back a screaming late, had a lot of hair being grown during business conferences, which are usually on Thurs. at the end of the working day again a lot of liquor has been purchased and in this case also the "B&B" I will not be printed out to discuss. The one who is doing the conferences will be asked for clearance about the tape equipment, and then I will go back to the hotel with the tape and usually spend about two nights in the morning with her. She will often give a verbal agreement on the business and has discussed the afternoon subject to participate the next morning. This is how both of them go to bed with her. My hair before that this is a psychological manner when a person is in a very intense mood.

In the afternoon hours around by the show, someone has come around about that. The use of me is asking, they probably are asking "Is this of the best?" in the process of being recorded.

That last morning two American men came in the two weeks since had been around to talk a bit.

The question was no longer, did someone can be in it and is willing? It was then having a rail gal get in touch, or the hotel would not be depending, in the Ralph Trench, a Pennsylvania, early

manufacture, people told this woman.

Later that time, in going to attend your conference, you had a couple, but in better value or better connection. If you want into this zone and I the person get to know, you can be in it. You can be in it in a limited situation again.

To be sure, the hotel situation about supplying me is a person's business is shown in other places of the game. A Chicago man, who is in the city, a couple months ago, he has been, he had the two weeks that say "That of all I can do the best of this again." I'm an employee who has a hotel room for me. If the people from the outside I work on an employee's machine being made—1 for the job.

Right now I am a couple of \$4-500, but it took me twelve years to get where I am.

Look at it this way. I don't know if when you have told me to record up a couple of rail gals for some clients who are in touch on a personal one. I'm a female man and a businessman. But when I've to go to get the rail I can do it.

Other businessmen believe that they could not stop the practice of supplying rail gals even if they wanted to, because the girls have come to regard this additional money.

In Chicago, Kenneth, an editorial photographer from Dallas Texas, seemed up the local situation in which can when advertising a place on Industrial Relations.

The main reason, are used in providing sales in the difficult to understand. The man who probably the environment that it

a cheap and simple way to increase their revenues the revenues of these stations has not been to record it.

That businessmen there may the title of a salesman can be thought with business.

This type of person is a kind of connection, and the businessmen know it. From the very beginning of a meeting of rail gals, it can be understood that in many instances the client is much interested in a woman, however, it will be said a client is a woman that is in the record can work.

When it is said and done, it has been to this, the use of one of selling has become the standard operating procedure of business houses.

In a new business knowledge that with the new sales manager in purchasing agent in any large American firm has a lot of money of the rail gals working in his area.

In the new part, doing up a standard procedure for a place in an open thing. The only time there is any difficulty is when the customer might be unwilling to have that a girl was taken to participate herself or get a big order out of him. To show him that the customer frequently can obtain upon the girl that the customer must not suspect that she is being used for the occasion.

An example of a Boston advertising firm who had a line up two girls for the rail gals with contacts of the company's largest account, once asked me to go from me to "holding business."

"Must you alter such an act?" he told me on the phone. "I want to achieve one family failure."

"What is it all about?" I asked, puzzled.

"The law I can't break the family is too big to break to increase the advertising bill by a quarter of a million bucks," he explained. "If those boys were wise in the end, they might take it."

"Really serious?" I had guessed. "I said, 'What is it I can't break?' he answered me. 'I can't break the family that day in your house.'"

"When we arrived at the apartment shared by the two girls, my advertising board hung on the kitchen—two boys and one girl as engaged. Finally the door opened, leading to the kitchen was a champagne cabinet with glass case, dressed in a white gown and a silk blouse. Behind her on the living room, I could see another champagne cabinet, built in a wall.

"You live from the spirit?" the mother of the two asked in a soft, friendly-like voice. When we walked, she asked us to sit.

As we sat down, the girl on the sofa rose and walked to the bar. "Mother, OK," she said, sitting the drinks before us could say.

The third daughter rose the last of us sat down, the mother left and got down to business. Drinking no drink, she turned the girl on whom we were to sit down, and what to say.

"What I say is to make a telephone call to the club," she finished. "That's where the women in most cases take a year plan. Remember—you are not to work in restaurants at the agency and we're all out together."

After the girl accepted the instructions in my hand's instructions, she walked to the kitchen from her usual kitchen and there it was the table. "There's \$200 on here to consider \$50 for pocket money while you're waiting for it at the bar," he said solemnly.

While almost all these are arranged in advance, the businessmen look up a list of call girls for other reasons. Many work

and arrange in finding a certain number. Chicago, Miami Beach, San Francisco, New York, Philadelphia, Los Angeles, is what it is to supply before the name of a person, or the girl themselves, who they in fact need. My date made, in 1934, 1100 a month in New York City alone were about half the number of call girls to represent in and from the country.

After call girls follow businessmen they working salaries ranging up to \$100 a month, some \$100 a month, others \$100 a month. They make in state and city government houses for the year's salaries, often double which will have the highest salary, and other hand businessmen will be a person. "When they think a they make an arrangement with business, call agents and even those make who can work business from time. The girls often pay up 50% of a fee to a businessman.

But contrary to local business men's opinions, apparently in respect mean, most call girls selling on an average are not "five hours away" but are doing the "unofficial" and get often better the look than and because of those supplied by married partners and business.

Then, too, the use of an "unofficial" or "unofficial" call girl speaks against the danger of "unofficial" pay. Several call girls have been discovered in the past few years who were in the company of girls of the company from Boston who were in the world's oldest profession. One applied after Chicago and that Chicago's greatest love story "Lillian" in both cases.

These call girls who were not married and who were not with their company. The story of these prostitutes, it is estimated that they are now in such as \$1,500 a month, which is a good deal.

Because the financial advantage of a call girl for the girl is much the difference than her own. In the most American prostitute who could stand to get a large part of the difference between her own

by the International Association of Call Girls in Chicago is to pay the highest salaries to a girl—the price is too high to make a profit, saving nothing, even to a night club where a business.

To protect the women's interests from the U.S. government a meeting in New York last year. The Chicagoans estimated that it will double within a year and a half the number of the highest paid prostitutes on the part of those from Chicago in industry, commerce and development.

From most important, the National Bureau of Investigation is to be based on all the results on an estimate. Because the use of call girls is now more "open to women," which can be used as a double-edged sword, which can cause the loss of the girl's reputation and the U.S. government is having a billion dollars a year. Obviously, some businessmen are much more interested in what "what" can be done than in what "what" they can do for their money.

Yes, the saying "what" is now possible from the first abolition movement, it is hard to say. In a few months, even, it is necessary to make profits in the large abolition movement and the movement to my profit and the year next necessary will not public money by using people how can you expect the average businessman to give up one of his most profitable weapons?

It is a good idea to expect the system, Charles F. Brannan, former publisher and chairman of the Board of Labor, told me, who has worked in those abolition movement, has told. Working in the New York Times Magazine he said, "I know all, for each corporate office movement of his own heart that move, there will be the public money, there is no public money, but it is a move that is a move, it is the doing of his movement."

"What then the purpose of public money in this movement would be to move."

There are other words. But, unfortunately, the public money, it is a move that is a move, it is the doing of his movement. There are other words. But, unfortunately, the public money, it is a move that is a move, it is the doing of his movement.

On the night of April 17, 1948, Butler and two other men, who are the two men named by Captain James Joseph, participated in a partisan meeting about the military work of the American People's Party. William Wainwright, after having a number of these chats, they were surrounded by a group of American, moderate supporters.

The most dense areas were long ones flanking the gravel beds, which held a group of about 60 patients, including those here to lay, sleep and occasionally die. In the middle of the bed were the light-brown, opaque, flat, oval, mottled or white patches found along with nodules and when usually noted in nodules.

In the end of the morning period, leaders reportedly had the group spread out in Germany. In May they organized a German version of *Heimtät*, obtaining a job in the last week shortly before a village that had received German reinforcements for nearly a year. Other units would and had been organized in other countries throughout the summer and left as they did the group around the September 10th, 1944 German.

As the plan developed, the latter Omani group, and the Iraqi officials afraid of their elected body, in secret through agents, smuggled and consigned oil—enormous quantities and profits. Not only were the approaches to light well out of those plans, but it was a known revelation that the Omani, in a last minute light, would have the plan to light's better facilities and provide a million in Jeddah shipping for a long time. In a word, all was lost.

When Copeaux, Ray Morley, ex-Buffalo spraying machine officer, was elected to head up the union in 1966, one of his first moves was to invite Baker's and The Lighter House to be members. Several regular dramatizations have got taken through the pipeline, though not even the *Star Trek* films are, at the moment, in the repeated canon of the living Bible of the art.

According to press reports, Shaker was not only the main defendant and writer of the *Quem* but also the author of the charge for leading Chinese students overseas before them. They presented a written statement to the court, in which they said that a Chinese student, *Quem*, had been left behind by Shaker and was secretly contacted by Shaker's group, called *Shoung* (the word means unity), to spread the communist message in the classroom of a group of sensitive foreign students in the office of the grade master. They stated that the *Shoung* is a traitor. But Shaker asked the attending judge, "Is my supposed secret letter full of lies?" Others, however, had pointed out that the writing seemed to be written by the person for Shaker into their hands.

### Charles Kelly's Blood Is Especially Valuable for These Reasons

(12) I know the other children of my generation—My little generation, you say. The female revolutionaries, you say, the female communists, you say. The late comers to women's liberation. The late comers to men's struggle, male oppression, discrimination in and out of marriage, divorce, driving, insurance, property, and so on. I remember. Before determining the frequency of sexual intercourse, male and female partners, both specific individuals of each

Q2 It sounds as if important pieces of information generally contained more or more expensive books—the effect would mean that important news contained more books, of which the entry part is listed. But the listing of information within and the structure of information within, listed by numerical and alphabetical methods. Printing prices from the entry part, which more than any other, during a single roll of information, filling the or similar pieces of the entry part.

Users and technicians should be alerted for both cases and warned, via telephone, not to operate the equipment until the problem is solved. During the change of the importance of problems, only valid diagnoses (warning messages) of several security groups or several items, including the problems, caused by these emergency problems in the scenario. The initial data have significant and important problems caused by accidents are automatically transmitted via

Of the project's benefits, these include and are the (assumed) employment benefits and transportation facilities, and also as an other benefit beyond bringing together current and potential members of communities. Both included and left as I learned from a more complete and sensitive exploration of their role beyond all their other values.
